PROFESSIONAL SUMMARY

Senior Frontend Developer with 5+ years of experience building high-performance, user-centric web applications. Expert in JavaScript (ES6+), TypeScript, Vue.js, React.js, and modern UI frameworks, with a strong track record of delivering scalable, maintainable solutions. Adept at UX-driven development, performance optimization, and collaborative problem-solving, having led initiatives that improved load times by up to 87% and boosted user activation rates by 15%. Skilled in cross-functional teamwork, A/B testing, and translating complex business needs into elegant, accessible, and consistent user interfaces. Passionate about creating seamless digital experiences that balance design and engineering excellence.

WORK EXPERIENCE

5+ years

Stekz (Media2B B.V)

Frontend Developer

Nov 2021 - Present

- Pioneered modern Vue.js architecture for client project, integrating PrimeVue, Pinia, VeeValidate, and Vue I18n while implementing 'Unplugin Vue Router' for type-safe, file-based routing, resulting in 40% faster development and debugging cycles
- Reduced tree view rendering time from 1.5 seconds to under 200 ms by implementing breadcrumb-based progressive disclosure, improving load speed for deeply nested data by 86.7%.
- Integrated AG-Grid for a performance-critical table featuring row-level validation, enhancing large-scale data operation efficiency by 40% and improving client satisfaction scores by 25%.
- Facilitated design sprints with developers and project managers using Figma, creating a shared component library that reduced design-to-development handoff time by 40% and improved cross-team collaboration.
- Collaborated in multiple whiteboard and brainstorming sessions to streamline the quotation process for a door production company, delivering a Figma prototype that boosted client trust and satisfaction scores by 30%.
- Designed and implemented a mobile responsive scanning application tailored to client workflows that improved operational efficiency by 30%
- Developed a framework-agnostic component library with Web Components and Lit.js, integrated into multiple internal/external projects, reducing UI development time by 40% and ensuring consistent design.
- Headed an initiative to migrate to React, which reduced codebase by 25% and increased webpage loading speed by 35%
- Initiated and drove the adoption of end-to-end testing practices using Jest and React Testing Library, improving code quality and reducing bug incidence by 40% before deployment.

- Migrated legacy JavaScript to ES6 and implemented advanced asynchronous programming, improving readability, reducing technical debt, and cutting maintenance time by 25%.
- Collaborated closely with back-end developers to integrate RESTful APIs, ensuring seamless data flow and reducing the time to market for new features by 15%.
- Led a UX overhaul of the onboarding flow, leveraging user research and A/B testing to increase user activation rates by 15% and achieve zero reported usability issues post-deployment.
- Developed and maintained a Figma design system with 20 reusable components, which ensured design consistency across the platform and accelerated the design process by at least 30% company-wide.
- Optimized front-end performance by implementing dynamic component loading and virtualized lists, slashing loading times by 50% for large datasets in the Mortgage broker application.
- Trained and supervised 5 new team members and assisted them in becoming familiar with the programming languages utilized within the company.
- Performed rigorous testing to identify and fix over 60 bugs within the front-end application.

EDUCATION

- B.Sc (Hons) in Computer Science | University of Westminster | First Class May 2021
- Higher Diploma in Computing & Software Engineering | Cardiff Metropolitan University | First Class Nov 2017
- Diploma in Computing & Software Engineering | Cardiff Metropolitan University | First Class Mar 2017

TECHNICAL SKILLS

- Programming Languages: **JavaScript (ES6+)**, **TypeScript**, **HTML5**, **CSS3**, **Python**, **SQL**
- Frameworks & Libraries: **Vue.js**, **React.js**, Angular, **Next.js**, Node.js, **Pinia**, HTMX, PrimeVue, **Tailwind CSS**, Lit
- Database Technologies: **PostgreSQL**, **MySQL**, MongoDB, Firebase, **SQLite**
- Tools & Platforms: **Git**, **GitHub**, **GitLab**, **Vite**, Webpack, Playwright, Jest, **VS Code**, Jira, ClickUp, **Docker**, AWS
- Design & Prototyping: **Figma**, **Adobe XD**, Storybook, Photoshop, Unity
- AI Tools: **ChatGPT**, **Claude**, **Copilot**, **Cursor**, **RooCode**

AWARDS & CERTIFICATIONS

- Toastmasters Speechcraft July 2022
- Research Paper Publication at iCIIT | MamaMoods: A Serious Game Designed To Provide Awareness On Antenatal Mental Health Feb 2022
- NBQSA National ICT Awards | Merit Award | MamaMoods Jan 2021
- Cutting Edge Final Year Best Project | Bronze Award | MamaMoods July 2021
- 2nd Runner-Up at Yarl Geek Challenge Season 7 Nov 2018
